Hameln, Germany, May 2018.

When a reserved flat weave remains strong under the highest of strain: SUPERIOR 1016 from Vorwerk is an exceptional weave product which goes to the limit, as it's made of the highest-quality, brand-name polyamide fibres. Its texture is also aesthetically pleasing thanks to its timeless, reduced structure made of low woven loops.

Holds up against strain: SUPERIOR 1016, colour 2Fo8.

Extraordinary durability and extremely good use characteristics make this flat-weave carpet the optimal product for both living areas and public spaces. It is complemented by a subtle look which favours the rest of the room's interior design. The ten tones within the colour world of SUPERIOR 1016 remain within the NATURE Design style world: elegant grey hues such as stone grey and blue-anthracite as well as brown colours – all nuances which lend the room warmth.

SUPERIOR 1016 is available in broadloom, with a width of 400 cm, and tile (SL) variants. It boasts two renowned labels – CE and GUT – and top marks of A+ for low room emissions (VOC).
